THE INDIANAPOLIS NATIONAL BANK Designated United States Depository. Corper Room Odd-fellows' Hal.

THEO. P. HAUGHEY. Pres't. E. E. REXFORD, Cash.

CONDITION OF THE MARKETS

Bullish Feeling in Wheat, Fluctuations Being Confined to a Narrow Range.

Corn Mederately Active, the Feeling Being Easier and Prices Lower-Oats Weak and Unsettled-Pork Active but Irregular.

MONEY, BONDS AND STOCKS,

The Market Feverish and Inactive, with Fairly Bullish Undertone. NEW YORK, Dec. 7.-Money on call was easy at 2024 per cent., closing offered at 2. Prime mercantile paper, 41 @61 per cent.

Sterling exchange was dull, but steady, at \$4.841 for sixty-day bills and \$4.881 for demand. The total sales of stocks to-day were 303,430 shares, including the following: Delaware, Lackawanna & Western, 38,390; Erie, 24,180; Lake Shore, 13,516; Missouri Pacific, 22,008; Northwestern, 19,699; Northern Pacific, preferred, 3,925; Reading, 25,600; Richmond & West Point, 8,522; St. Paul, 17,160; Union Pacific, 17,850; Western Union, 12,497.

The stock market to-day was somewhat less active, and while feverish, was generally strong and showed throughout a firm undertone. The temper of the room was moderately bullish, but the list had considerable realizations by the trading element, as well as by London, and some hammering of specialties, among which Rock Island was most conspicuous, to contend with, though the disposition to regard the railroad situation as improving and the bullish telegrams from Chicago gave a confident tone to the business. The advance in rates for money on the other side of the water caused some selling for London account, and this caused much disappointment to the bulls and was the oceasion of a sharp set-back in the early trading. The inexplicable drop in Rock Island was also a heavy blow to the strength of the list, but the traders endeavor to cut the market out from under the sellers of long stock, whenever they think they discover anything of the kind. The announcement of the official advance n west-bound rates was not made until just before the close of business, and it had the effect of again stiffening up prices when there was a tendency to droop. The coal stocks were the strongest stocks to-day, although, except in Lackawanna, there was almost nothing doing in them. They all closed with marked gains, howover, which seemed to be only the reaction from he late depression, as there was acthing new in the situation. New England and Missouri Pacific were both axceptionally strong at times, but both were also very weak by spells, being singled out by the "bears" for effect upon the rest of the list, and their final thanges were for small fractions only. Rock Island was the only one of the grangers showing any marked weakness, but most of its decline was afterward recovered, and its final loss is a fraction only. Cotton Oil was again a prominent feature in the market, and was exseptionally strong, even when the regular list was drooping, and it closed with an advance of over 2 per cent. The opening figures were rather heavy, but a firm tone developed immediately, and fractional gains were scored in the first few minutes. A sharp attack upon Rock Island and Missouri Pacific, however, brought the list down again, but before noon all the decline had been regained, Missouri Pacific shooting up 2 per cent in a very short time. The best prices were generally reached toward noon, after which there was less animation and a sagging tendency, which slowly wiped out most of the improvement, until a decided advance in Erie changed the course of prices. The final impetus was given in the last few minutes by the announcement of the advance in west-bound rates, and the market closed quiet but strong, generally at something under best figures. There are a few declines to-night, but none is for more than a fraction, while San Francisco preferred rose 12. Lackawanna, 13; Jersey Central, 12; Erie and Omaha 1 per cent. each,

There was an increased business in railroad bonds to-day, the sales of all issues reaching \$1,242,000. There was no special activity, and the list was devoid of any feature of particular interest. The tone of the dealings was in close sympathy with that of the share list, being feverish and unsettled, though there were no marked movements as in the latter. Fluctuations were still confined to small fractions, the bowever, generally show advances, and Green Bay incomes rose 22, to 272, the only marked movement of the day.

Government bonds were dull and steady. State bonds were dull and featureless. The

Butter easy and quiet: Western dairy, 14@ 26c; Western creamery, 21@33c; Elgin nominal. Cheese firm and in fair demand; Western, 10@

CHICAGO, Dec. 7 .- A "bull" feeling existed in wheat during the most of the session and fluctuations were confined within parrow limits. The opening was a shade easier and under the closing figures of yesterday, selling off &c, then rallied &c, declined lc, and closed &c lower than yesterday. What little business was transacted was almost entirely local, outside orders being fewer than usual and the market governed by local operations. At interior winter wheat receiving points the receipts were very light, smaller than last week, and also below the arrivals on the same day last year. Corn was only moderately active, most of the trading occurring early in the session, after which the market became quiet and lifeless, operators giving the pit but little attention. The feeling developed on the whole was easier and transactions were at a lower range of prices. Opening sales were a trifle under the closing prices of yesterday, after which prices fluctuated within a c range and closed 10 to lower than yesterday. Oats were weaker and unsettled, and prices averaged lower. A fair volume of business was transacted on declines, there being sufficient buying orders to absord all the offerings, and several round lots changed hands. On the rallies offerings were liberal and a reaction followed. The market closed easy at inside figures. Quite an active business was reported in mess pork, though prices ruled somewhat irregular. The market opened rather strong at 12½ @ 15c advance, and a further appreciation of 5@7½c was gained during the early part of the session. Later a weaker feeling was developed, and prices gradually settled 17 20c. From this point an advance of 10c was gained, but not supported to the close. Trading was moderately active in lard. Opening sales were made at .07½ @.10c advance, and a further appreciation of 024 @ 05 was gained. Later there was a little more pressure to sell, while the demand slackened and prices declined 12 c, and closed quiet. A moderately active business was transacted in short-rib sides. Prices ruled .10 @.12 to higher. Later the market ruled easier, and prices settled back .071 @.10c, and closed comparatively steady. The

92,000 bu; rye, 20,000 bu; barley, 61,000 ba. DUN & CO.'S REVIEW.

Confidence in the Business Outlook, Although the South Is Uneasy at Present. NEW YORK, Dec. 7 .- R. G. Dun & Co.'s weekly review of trade says: Reports of the condition of business note a confident feeling as to the future, but many causes in different sections produce slackening for the present. Much uneasiness is felt in portions of the South and collection are not above par, while failures in some Southern districts are many. Memphis reports 50 per cent. more than last year. Open and mild weather in the Northwest causes uneasiness in some trades, particularly in clothing and boots and shoes at Kansas City and Milwankee, and lack of snow delays logging in

The money markets are nowhere disturbed. but 7 and 8 per cent. is paid at many Western and Southern centers, and I per cent, per month at Salt Lake. The Treasury reports show that the currency in circulation, though \$1,700,000 less than Nov. 1, was about \$37,300,000 larger on Dec. 1 than a year ago; but during the past week the Treasury has taken in \$3,400,000 more than it has paid out. The imports for five weeks at New York have been only 3.6 per cent. smaller, and exports from New York only 2.5 per cent. smaller than last year; yet the exports of wheat from Atlantic ports were only 299,882 bushels, against 3,170,763 bushels in the same weeks of last year, and of flour, 598,297 barrels, against 1,178,619, with an increase of 1,345,000 bushels in corn.

Wheat closes higher than a week ago: corn to lower, pork 50 cents lower, and hogs 20 cents per 100 lbs. Oil has risen 2 cents, coffee 2c, and hides have declined ic. The coal market is dull and actual prices 25 @ 50c below the schedule. Wool has advanced—the finer grades more than a cent since the middle of November. The average of 106 qualities is 24.8 cents against 24 cents Nov. 13, 23 cents Oct. 15, 24.1 cents December of last year, and 26.8 cents Dec. 1, 1886. The belief that the clip and the stock on hand have been below estimates grows more prevalent.

The iron market is dull and waiting, with prices a chade weaker at Pittsburg. It is now reported that steel rails have been sold for \$25 at the mill, but \$28 at Pittsburg is said to be the bottom at present. Nails are dull at \$1.90, but bar-iron is firmer. The large sale of copper to manufacturers, said to be at 164c, does not prevent speculation, which has caused weakness in prices. Stocks in England and France are 95,790 tons, against 91,740 a month ago. and 45,130 a year ago, and it is believed 30,000 tons are in stock in this country. A break in tin also lowered the price to 22c.

The stock market has been depressed. On Wednesday the average of lowest sales for sixty active stocks was but \$58.63 per share, against \$60.29 Dec. 1, and \$65.09 Sept. 30. Want of confidence in arrangements of railroad managers prevails, and foreign holders appear to be selling gradually.

The business failures number 305, as compared with 232 last week and 296 the week previous. For the corresponding week of last year the figures were 254.

TRADE IN GENERAL

MINNEAPOLIS. Dec. 7 .- Wheat on the sample tables went begging for buyers as usual, and notwith-standing the decline in wheat the demand did not appear to grow. Sellers were not offering much concession in values of the best milling wheat, but the low grades were forced on the market. Of the total inspection, nearly 300 cars, but 8 were graded No. 1 hard, and the amount of that grade offered on the tables was very small. Buying was not active anytime, and during the first half of the session but little busines was done. Closing quotations: No. 1 hard, December, \$1.20; January, \$1.21 2; May, \$1.27 2; on track, \$1.21. Lambs in light supply and steady at \$3.50

INDIANAPOLIS MARKETS.

Trade Good, Prices Firm and an Encouraging Outlook in the Local Trade. INDIANAPOLIS, Dec. 7.

In all departments of trade there is a good volume of business in progress. Grocers are having the busiest week of the year. Sugars and coffees still have an advancing tendency, and canned goods, with an increased inquiry, are firmer. In fact, all descriptions of groceries, unless it be syrups and molasses, are much firmer in tone. Dry goods men have had an excellent trade in the last three days, and all along the line firmer prices prevail. In the produce markets there is a fair activity. Eggs, which have been in so strong a position for six weeks past, show signs of weakness, and in New York, yesterday, would not sell for over 22 cents, limed eggs bringing only 194 cents. Receipts of game are light, and while prices have not advanced, there is a brisk demand. The poultry market rules weak. A telegram from New York, to-day, reads as follows: "The disastrous Thanksgiving glut still depresses the market, and low prices are inevitable on bulk of stock now here. Receipts, however, are running light, and fine stock is now plenty. We are selling prime fresh receipts of Western turkeys and ducks at 10c, and chickens at 9c. We look for a better market next week, and advise shipments on a low basis of cost." The iron market carries a decidedly better tone, and the same is true of the provision market, although the volume of business in provisions, at the present time, is rather light; but an improvement is looked for in a few days. The hide market is still offish in demand and prices. The flour market continues dull, and will likely be so until the overstocked market is somewhat cleared. The wool market carries a steady tone. GRAIN.

The attendance on 'Change to-day was better, and a little more life was shown in the bidding. The receipts of wheat continue small, while corn is arriving more freely, forty-eight cars coming in to-day, and there is a fair local demand. Oats are in moderate demand, while prices are easier. The hay market rules a little heavy on free offerings. We quote: Wheat-No. 2 red salable at \$1.02@1.024; No.

3 red at 95@98c; rejected at 75@85c for poor to good, and 88@92c for choice; wagon receipts quotable at \$1 @1.02 for No. 2, and 95 @97c for Corn-No. 1 white, 36te; No. 2 white, 35e; white mixed, 34c; No. 3 white, 324c; No. 4 white, 31c; No. 2 yellow, 36c; No. 3 yellow, 32c; No. 2 mixed, 36c; No. 3 mixed, 31tc; No. 4 mixed, 301c as track bids made on call.

Oats-No. 2 white, 29c bid; No. 3 white is salable at 28@28ic; No. 2 mixed at 27@27ic; rejected, at 231 a 241c. Hay-Choice timothy, \$14 bid; No. 1 timothy quotable at \$13.50 @ 13.75; No. 2 timothy at \$11 @11.50: mixed at \$9.50@10; No. 1 prairie at \$8.50 @ 9.50; No. 2 prairie at \$7 @ 8.
